## FORWARD

Dear Reader:

We respectfully submit to you this, the second volumn of the Quarrier. We have attempted to represent here in a brief form our school life as it is seen and enjoyed by the students themselves. We hope you will be interested enough to read and examine it in all parts and regard it as a prized possession in the future. When the visions of your school days grow dim with the passing of time, may you turn back to these pages, renewing your inspirations and ideals by the awakening of school memories. With pleasure therefore, we, the Class of '43, take this opportunity of leaving to you these few tokens of appreciation for the pleasure and benefits which we have derived from our school career.

## DEDICATION

At the present time the entire world is engulfed by war, and our men have gone away to fight in order to uphold our great self-respect and ideals that have been permeated into our country's life from the past. It has always been the great moral strength of America and her great MILITARY LEADERS that have carried her through in times of stress.

Confident in the justice of the causes, they have set out with determination to stand by our ideals and maintain the principles which they believe to be right.

The problem, to win a victory that will bring a just and durable peace to a world that is being shattered by this greatest of all wars, is an exceptionally grave one, a situation that will tax the utmost wisdom of our statesmen and our citizens.

So, it is to the MILITARY LEADERS, who are so willingly and successfully leading us through this crisis, that we, the Seniors of 1943, wish to dedicate this edition of the QUARRIER.

## HISTORY

As Historian of the Senior Class of 1943 of the Granite Quarry High School, I submit the following log, presenting the data and experiences of the graduating class:

In the autumn of 1939, a group of young Americans, numbering 72, entered Officers Candidate School, located in Granite Quarry, North Carolina. Under the splendid direction of Captains Sarah Wellman and Mary Fletcher, the students began to like the military techniques. The President was Private Brent Yount; Vice-President, Auxiliary Alice Holler; Secretary Auxiliary Mary Evelyn Kluttz; and Treasurer, Private Bill Lyerly.

After being on maneuvers for a few months, some of this same group of young OCS's, numbering 58, entered the second year of training, filled with new hopes and aspirations. Under the direction of General Paul Angell, the class advanced rapidly. The President was Private Marjorie James; Secretary, Private Voneva Brown; and Treasurer, Private First Class Bill Lyerly.

The young OCS's, numbering 47, were back again to resume their studies in the fall of 1941, determined to make a high rating. General William Rhyne was instructor. The officers were elected with Corporal Horace Hoke, President; Corporal Brent Yount, Vice-President; Corporal Doris Beck, Secretary; and Corporal Bill Lyerly, Treasurer. A group of young candidates presented a wonderful, humor-filled play entitled, "Poor Married Man", directed by Captain Alice Hicks Lyerly, to the officers, men, parents, and friends of the Granite Quarry Infantry Division.

In the year 1942, a group of more dignified, ambitious Americans entered the fourth and last year of training. Captain Ruth Sowers led this group victoriously. Sergeant Shirley Ketner was President; Sergeant James Walser, Vice-President; Sergeant Thelma Eagle, Secretary; and Sergeant Wade Peeler, Treasurer.

During the entire four years of training, Mr. E. C. Staton was Commanding Officer.

Carl Baity, of the Senior Class, has already responded to the call to fight for the freedoms and privileges which our fore-fathers came to establish in America almost a century and a half ago.

# THE QUARTIER

Now this group of young Americans has graduated with a high rating of Second-Lieutenants (jg) in the Army Reserve. They are now ready to take their stand in the world; ready to fight, and even die for their country.

We were born Americans, we live as Americans; we shall die as Americans! As we go into the world that awaits for us, our battle-cry should be: "One flag, one land, one heart, one hand, one nation evermore!" It was Addison who said: "Who would not be that youth? What pity is it that we can die but once to save our country."

Dorothy Lingle, Historian

## PREDICTION OF SENIOR CLASS

There is an old Indian legend that a precious treasure has been buried by one of the tribal chiefs somewhere in the north east corner of Rowan County. And anyone who would find the treasure would become heir to all the wealth of the tribe unto the fifth generation. Down through the centuries hundreds of explorers have made the search, but none ever found the hidden treasure.

Learning a few days ago that the search is still open for any high school senior, and that the value of the treasure has increased a million times since it was first buried, I hurried to the supposed scene with this one aim, namely to find the treasure and bring it back with me to Granite Quarry to become the prized possession of the Class of 1943. After many hours of faithful digging I unearthed an object which I thought was the coveted treasure. But I soon discovered that I was sadly disappointed. All I had was a rough ball-shaped object, seemingly of no value. But I would not give up, I chiseled and scraped until I began to see reflections of something on the inside. And what do you think? Deep in the center I saw the figures 1-9-4-3. And in one little polished spot I saw the word "Class". Then I got busy and the longer I worked the more words I could see. And these words turned out to be the names of my classmates. The ball had every name in it, and as I turned it around toward the light I could see something written under each name. This writing I will try to reproduce so that you can see what I saw.

George Lyerly will hold high office in a clothing firm.

Mary Evelyn Kluttz will become popular when she publishes her first song.

Nell Wensil will be a fashion designer in Paris.

Bill Smith, the inventor of America's first "Auto-plane."

Burton Richardson will be the nation's leading farmer.

Nancy Miller will be a speaker or die and she will live to be ninety.

Howard Thomas will win the election to the State Senate in 1965.

# THE QUARTIER

When I had turned the polished ball over and over and was sure that I had seen all the names and all the inscriptions, I laid the found treasure back into a safe place deep in mother earth to await the fulfillment of all these Predictions.

Brent Yount

## CLASS SONG

There is a school that lies beneath the blue sky,  
Where we have spent the happiest days of all  
With all the work and lessons which have bound us here  
And where we formed old friendships lasting years and years.

Chorus:

So as we close this book of fond memories,  
We leave you with the days that are ahead  
"To strive, to seek, to find, and not to yield,"  
This is the motto which will guide us through the years.

Farewell to you, our friends of high school days  
We part with wishes for the days to come  
In hope that you will find your peace and happiness  
And oft recall your teachers, friends, and Granite High.

Tune: Londenderry Air

Mary Evelyn Kluttz
